Objectives

- This lesson covers the following objectives:
 - Identify the course goals and objectives
 - Describe the course learning strategy
 - Understand the course environment

Course Goals

- The goal of this course is for you to be able to:
 - Describe the purpose of a relational database
 - Describe key business requirements when developing a database
 - Use data modeling to architect a relational database

Course Goals

- The goal of this course is for you to be able to:
 - Develop an entity relationship diagram (ERD) to model data
 - Use Oracle SQL Developer Data Modeler to build ERDs
 - Map a physical model from an ERD

Course Goals

- The goal of this course is for you to be able to:
 - Create a physical model from a logical model (ERD)
 - Write, execute, and save SQL statements in Oracle Application Express

Course Outline

Course Strategy

- Instructor-led training
- Project-driven curriculum
- Industry-recognized certification
